

VP3

Nigeria Initiative

An urgent need to equip leaders.

How it began

While Bulus Galadima was in the States for seminary, he attended Immanuel Church in Gurnee, IL.

Bulus was part of a *Journey* group there and saw the potential for use within church leadership in Nigeria.

When he returned to Nigeria as provost of a Nigerian seminary, he shared his experience of *The Journey* with other leaders. Financial help was raised through VP3 and Immanuel Church allowing them to offer *The Journey* to over 100 people! The impact was phenomenal!

Bulus Galadima

"Before The Journey, I was confused about my life, calling or ministry. I had no confidence that something good can really come out from my life.... God poured his cleansing water into the dirt and sin cup of my life and his outpouring is removing the dirt and is refreshing me, renewing my sense of value.... This process has become one tool God is using in forming me." Rebecca Dauda, Kaduna

The need today

The ripple continues through the ministry of Bitrus Audu. Bitrus has reached back out to VP3 to see how we can continue this deepening work. The current state of affairs in Nigeria is unstable. Their income is extremely low, living on \$1.00 a day. Christian lives are at stake every day yet people are longing more now than ever to have that deeper walk with Christ. Many are asking to be a part of a *Journey* group, so we have come up with a plan. But we need your financial help.

Training

Two leaders from Nigeria plan to be trained in the leading of the VP3 Pathway of processes. This will be a compact, intense training time that will equip them to lead well and train others back home.

Materials

Getting the VP3 materials to Nigeria has proven to be most difficult—theft, delays, damages. Therefore, VP3 is offering this group printing rights for the manuals. This will give them freedom to print as needed and have the materials when they need them.

How you can help

We anticipate the cost to train and equip these leaders, providing them with the tools they need, will be about \$7,500. VP3 has discounted the manuals by over 75% which is reflected in these numbers.

Cost to train Bitrus Audu and his associate (materials and VP3's staff resources) \$3,000

Printing rights for 100 sets of manuals \$4,500
